**Ex-Employee**

### **ex employee what a scam!!!**

I once worked for the western washington bbb selling memberships as a telemarketer, although the bbb does not like that word (telemarketer) thats exactly what we were. They had us calling businesses, and part of the script we used was a complete lie. We told business owners that we were recieving calls of interest about their companies (a total lie) the bbb paid a good commission of 45 to 55%.It is all about money. If the bbb has no ethics, then how is it that their membership does. From what I know I would avoid companies that belong.
