Company Name: BBB Bad Business Bureau
Has this problem been resolved yet? No
Submitted by: John M. Sions II

Dear Ms. Bacon,

The illegal and fraudulent decision made by Mr. Scott, arbitrator in our case has devastated our family. The arbitrator Mr. Scott fraudulently and illegally gave away our home, to the filthy criminals that run American Engine Installations in Denver, Charles and Tim Gemelli. These two individuals have conducted a fraudulent business in your jurisdiction for years and have accumulated 37 complaints, in just the last two years.

Mr Scott is a criminal, guilty of grand larceny. The BBB is responsible for his criminal actions. Mr. Scott callously gave the Gemellis a \$10,000.00 to \$15,000.00 reward for stealing our motor home, and engaging in fraudulent business practices. Mr. Scott ignored every statute of the Co. Motor Vehicle Repair Act, the law of the land, governing motor vehicle repairs in Colorado.

Mr. Scotts fraudulent and illegal decision will the cost the BBB millions in lawsuits over the next few years. Your organization, the BBB, was founded in 1912 for the sole purpose of consumer protection. Your glitzy new website has false and misleading information regarding such foreign values, as integrity, honesty, trust etc

The decision by Mr. Scott to steal our motor home from us is a beacon that will draw thousands of litigants in a massive lawsuit that I will organize against your BBB Bad Business Bureau. All you have to do, is to Google BBB sucks and count the number of angry consumer complaints at various websites such as ripoff.com, squeakywheel.com, Google blogs etc If someone were to organize these angry litigants against the BBB, we the defrauded consumers, could shut down your organization with an avalanche of lawsuits, like you have never seen. All it takes is one person to bring down your fraudulent business empire.

The time is right, when the presidential candidates, are espousing anti-business rhetoric toward the greedy corporations, that have bankrupted America. If you choose to identify with these greedy corporations, by your fraudulent acts, and act as their protector, you will surely go down in flames and justice will be done.

Stephanie and I are both disabled and homeless, living in our RV. Your criminal arbitrator stole our home and gave it to Gemelli, public enemy number 1, of the Denver Colorado BBB. Not only did the arbitrator ignore the ironclad original contract, and the Co. Motor Vehicle Repair Act, he assessed a fine upon us,

the victims, of almost \$5,000.00, and gave us no more than 14 days to pay, then gave away our home. That's right Ms. Bacon, our home. That constitutes fraud, without reasonable notice!

The motor home is the Sions family home. You should understand the foreclosure crisis going on in America today. It is another fraud perpetrated by the greedy corporations that you protect. However in the foreclosure process there is a willingness to work out financial payments and there is reasonable time given before the home is taken away. The criminal arbitrator in our case decided that we were not entitled to proper notification and took our home away on the 14th day of our being notified of his illegal decision.

At the outset of the arbitration hearing my lawyer, Mr. Portales was very optimistic that we would walk away with either the motor home free and clear in compliance with statute 42-9-105 of the Colorado Motor Vehicle Repair Act which states When consent and estimate are required-additional repairs-changed completion date: Unauthorized charges. Since 7-1-2006 AEI has deliberately refused all contact with us except for the written contract and invoice of 10-10-2006 received by fax. The ratified contract amount is for \$3,902.21. AEI is demanding \$6,000.00, plus storage charges. The statute states AEI is limited 10% or \$25.00 overcharge whichever is less. AEI failed to notify us of any completion date as required by the statute. AEI assessed charges far in excess of what is allowed by the Co. MVRA. Hence the contract we signed on 10-10-2006 is null and void and according to the statute the vehicle must be reassembled to original condition at no cost. The \$400.00 disassembly fee is a violation of this statute.

AEI and the Gemelli gang violated 7 statutes of the Co. MVRA therefore; it is not possible for a just arbitrator to give away our home to lawbreakers with such blatant and deliberate disregard for Colorado law. The arbitrator, in violation and contradiction of the Colorado Attorney Generals office, virtually ignored our plea for justice, and issued a decision that is an obstruction of justice.

Stephanie and I came to you, back in January 2006 with two complaints of business fraud in your state, in your jurisdiction. Despite the fact that you have a sworn duty to protect the consumer since 1912, against fraudulent business practices, you have done nothing but whitewash Boyer Tire another bunch of criminals that illegally sold a motor vehicle by misrepresenting a blown engine, and then concurrently AEI that continued the business fraud under your jurisdiction. Neither business has been punished, for their illegal activities. On the contrary, you have decided to reward the latter business, AEI, with our home. That is worth between \$10,000.00 and \$15,000.00 with a new engine which we never received. Gemelli got our home, free and clear. He gets our motorhome for \$0, spray paints over the grease on the engine, making it look new, then sells it on ebay for \$10,000.00 to \$15,000.00, a clear profit for the Gemelli Gang.

This is for you Mr. Scott. If we are not given a reconsideration, and a just, honest, fair, ethical, and legal decision such as; a return of our home according to Co. MVRA statute 42-9-105, or enforcing specific performance of the ratified 10-10-2006 repair contract. With a "factory remanufactured engine" for \$3902.21, the contract amount ratified by both parties, then we will come after you with both criminal and civil charges, to recoup our losses due to your illegal decision. Mr. Scott it is obvious by your illegal decision, that you are either being bribed, or you have some financial interest in the Gemellis. You would not risk your reputation and position with the Colorado bar rendering such an illegal decision.

To Allan Cohen, perhaps Mr. Cohen youve read your Old Testament, and the story of David and Goliath. I fully intend to make the BBB pay for its illegal and fraudulent handling of our cases against two fraudulent businesses in Denver Colorado. Mr. Cohen your job as chief counsel at the BBB is to keep them out of trouble, not to stonewall potential litigants, and make them so angry that they sue the pants off your employer. Your job with the BBB is to keep them out of trouble. May I suggest in your dealings with me that you not insult me with your silly canned I dont see anything wrong with that decision and use your God given conscience to see the error in this decision. I will seek justice against your

organization all the way to the Supreme Court if necessary. I will organize thousands of litigants and I will put you people where you belong, as protectors of the greedy corporations, that you represent. Out of business.

Thats right Mr. Cohen, no more dues for you. You represent the consumer, not some sleazy business, that is paying you money under the table. Also, take down your website before you get slammed with a false and misleading advertisement lawsuit. The BBB has been destroyed by a culture of greed and money grubbing.

You are not acting in the public trust as you say, you are instead hypocrites, defrauding consumers into thinking you are on their side, when in fact you are just protecting big business. It is a well known fact that businesses use the BBB arbitration system because they do not want the liability of going into a fair and just court of law where the decision would inevitably be in favor of the consumer. The jig is up Mr. Cohen.

As for you Ms. Bacon, you gave me the impression that the decision made by the criminal arbitrator was unjust, unfair and illegal. I sensed empathy in your voice especially when you said The decisions arent always fair, fair for the consumer that is. The Colorado AGs office is trying to do the job of cleaning up your Denver Colorado business community all by themselves. It remains to be seen whether the BBB Bad Business Bureau will heed my warning and clean up their tarnished image now by meeting out justice to all the angry consumers injured by the BBB, or whether the BBB will ignore me and laugh at such a little person going after such a big organization.

Remember Enron?

We will carry out a class action litigation, law enforcement investigations of the BBB, congressmen and senators investigations of the BBB. Also a media and advertising campaign to finish off this fraudulent sham of an organization called the BBB. As you can see, you people have made us very angry, however as a disabled person, with a bad heart, my cardiologist has recommended, that I dont pursue any stressful endeavors. So I will make you an offer.

Set aside this illegal arbitration decision, I want reconsideration by a new arbitrator, a new hearing at which the settlement will be in accordance with Colorado law. I will accept only a legal decision that exhibits your now fraudulent misleading false claims of your website. At that point, I will go away, and let you deal with the thousands of other litigants that want a piece of the fraudulent, unfair, unjust and unethical BBB.

Sincerely,

John Sions II

UPDATE:

The Denver Colorado BBB houses a criminal arbitrator named John Scott. John Scott in an impromptu arbitration hurried a last minute Grand Larceny of our valuable motor home before Christmas. After a year of waiting we were hurried into an arbitration with a gang of thieves Tim and Charles Gemelli of American Engine Installations, public enemy #1 in Denver CO. They have collected 551 customer complaints nationwide and 37 complaints in the Denver BBB. The BBB has partnered with these crooks by refusing to act to protect the rights of the customers it is sworn to protect since 1912.

On 12/20/2007 just in time for Christmas, John Scott gave away our motor home to the Gemelli Gang, as a reward for their fraudulent business practices. He inflated the contract amount and gave us 10 days to

come up with \$5000.00, for a repair that was never done. Despite our excellent testimony, Gemelli's obvious lies, contempt for the injunction already placed on him by the CO Attorney General's Office, and the gross miscarriage of justice, John Scott gave our home away. Yes, our home. We are a homeless family, disabled and living on a fixed income. Our motorhome was to be our home.

John Scott is a criminal because he ignored and violated CO Law the COMVRA (Colorado Motor Vehicle Repair Act), the law governing motor vehicle repair in CO, and the actual contract, in issuing his decision. What is more shocking is that the Adams County District Court, Judge Crabtree upheld his illegal decision which is in violation of CO Law. We are appealing the decision.

The BBB is a criminal organization that has fraudulently switched from protecting the consumer against fraudulent businesses to protecting fraudulent businesses from the consumer.

We need to close down this fraud BBB, with a class action, multiple litigant, lawsuit.

John Sions II

UPDATE:

April 10, 2008

The Denver BBB arbitrator, John Scott, with the help of Adams County District Court "Judge Crabtree" in violation of the Colorado Motor Vehicle Repair Act, have both committed Grand Larceny of our motor home by giving it to the "Gemelli Gang" of AEI fame, as a reward for their fraudulent business activities.

Judge Crabtree denied our 2 motions without any consideration, to a fair trial. Judge Crabtree and John Scott of the BBB are in violation of COLORADO LAW!!! Specifically, the Colorado Consumer Protection Act (CCPA) and 7 statutes of the Colorado Motor Vehicle Repair Act (COMVRA).

Where is our "EQUAL JUSTICE UNDER LAW" (US Supreme Court) ???

This illegal decision was made in contempt, of the CO AG Adams County Court complaint and corresponding Court Order filed against AEI, ET AL and the "Gemelli Gang" (Tim and Charles Gemelli), in July 2007.

UNCONSTITUTIONAL, ILLEGAL, FRAUDULENT, and UNBELIEVABLE!!!!!!!!!!!!

The Better Business Bureau (BBB) fraudulently claims non-profit status when in fact they are a highly profitable criminal enterprise.

Fraud, violation of Colorado law (the CO MVRA and CCPA), Grand Theft Auto, Perjury, and Obstruction of Justice are the charges against the Denver BBB.

The BBB Council Headquarters has refused to answer these charges:

- 1) BBB fraudulently claims non-profit status,
- 2) BBB gives false ratings to members for money,
- 3) BBB lobbies Congress and Senate for illegal monopoly and immunity from prosecution,
- 4) BBB violates State and Federal Laws in fraudulent arbitrations to benefit their business members,

- 5)BBB violates anti trust laws,
- 6)BBB is very profitable and does not qualify for non-profit status,
- 7)BBB is deeply involved in organized crime,kickbacks,extorsion,racketeering,anti-trust violations and RICO Statutes violations.
- 8)BBB is modern day Corporate Mafia, selling protection from the consumers, in the form of a satisfactory rating, to fraudulent businesses for membership dues.
- 9)BBB gave satisfactory rating to American Engine Installations (AEI)with over 550 complaints for 3 years
- 10)BBB held fraudulent arbitrations in violation of Colorado State Laws, stealing motor vehicles from 66 consumers and awarding them to AEI for fraudulent business practices.
