### **BBB is worthless in my case**

I have been ripped off by my builder Reynen and Bardis. I contacted the BBB prior to my home purchase and there were no complaints. Wow a company that builds such a complicated product as a house and does not have any complaints must be good. Wrong. I have filed several complaints with the BBB since my purchase. These complaints do not sho on the Reynen and Bardis file since they responded. No they have not fixed my home, but they did write back to the BBB so my case is closed. Pretty worthless if you ask me.
