Buy your Better Business Bureau

Better Business Bureau - California. 'Mr. Stephen Lee Ricket...As you may be aware, we administer a mediation/arbitration program, BBB AUTO LINE, to resolve disputes between certain automobile manufacturers and consumers...However, BMW does not participate in our program in the state of California.' (to many complaints to deal with and the highest liability? What are they hiding or how much are they paying you?)

Upon reading your report I updated my link to the BBB on www.WorthlessBMW.com to take consumers to your site. Ironically, the BBB has since provided my with a complaint number: 281206.
