Consumer Suggestion

The TRUTH about the BBB. It is a SCAM!

The BBB is a FOR PROFIT business. They ARE NOT any sort of government agency, and have NO POWER whatsoever to make anyone do anything.

As a business, if you pay the huge membership fees, you get a good rating. If you do not join, and pay the huge membership fees, you get an unsatisfactory rating.

It is simply extortion. That is the BBB. It is a joke and a scam. People need to get educated on what the BBB is all about.

For consumers: Get familiar with the various GOVERNMENT consumer protection agencies, and your rights under the law.

For Businesses: Keep your money in your pocket.

Consumer Comment

Your Job

Kim, I am sure that you rely upon the BBB for your job. But we too rely upon them for support of our consumer rights. When we as consumers are treated as if we are nothing to the BBB because we do not support them, than it is time for all of us to stand up and express our own feelings. We all have that in the world....freedom of speech....and we that are complaining feel that we have been wronged by the BBB. So, let us speak for ourselves and stand up for our rights as consumers. It is OUR money that pays for those idiots to join the BBB so that YOU can be paid....put that in your pipe and smoke it.
