## BBB exposed by The Fleming Organization

March 24, 2009

351

I personally have heard Michelle Corey and other workers use the word nigger on more than one occasion and treat African Americans as second class.

FOR IMMEDIATE RELEASE

([Free-Press-Release.com](#)) March 24, 2009 -- St.Louis, MO - Last week, the Better Business Bureau issued a press release accusing The Fleming Organization and their subsidiaries of identity theft. The Fleming Organization, lead by Chairman Terron Montre Fleming and Chief Executive Officer David Fleming, have been on numerous news and radio stations doing interviews setting the record straight regarding the Better Business Bureau's allegations.

Ads by Google

"There is always two sides to every story," stated David Fleming. It just so happen that our side is

right and it is backed up with facts, while the Better Business Bureau's news release reported a bunch of heresy."

Among the hersey reported by the Better Business Bureau was that The Fleming Organization and it's subsidiaries were stealing identities. The Better Business Bureau's facts to back up this allegation was, "We had five ex-employees tell us that."

Chief Executive Officer, David Fleming, responded by saying, "Our company prides itself on having the highest level of integrity. We have never stolen anyones identity. Everyone's personal information is kept confidential. I find it funny that these claims are coming from employees that were fired and then the next day called the Better Business Bureau. What type of people are working at the Better Business Bureau?"

David Fleming didn't have to wait long for his question to be answered regarding what type of people work at the Better Business Bureau. During the past week, The Fleming Organization has had over 100 individuals and businesses who have either called, emailed or sent a letter defending The Fleming Organization and expressing their experience and opinions about the Better Business Bureau.

During a radio interview with Terron Montre Fleming, Chairman of The Fleming Organization, he was asked if he believed he was being discriminated against by Michelle Corey and the Better Business Bureau. "I am not going to play the race card," Fleming said. But many consumers seem to think differently.

"I use to work for the Better Business Bureau," a anonymous source said. I personally have heard Michelle Corey and other workers use the word nigger on more than one occasion and treat African Americans as second class."

The Fleming Organization recommends using the Attorney General when looking for information on businesses, not the Better Business Bureau.
